

A bit of precipitation over the week-end was very welcome to orchardists and stock raisers in the Santa Clara valley. Of course, it could have been a lot heavier without hurting anybody's feelings. It might have been only the forerunner of a real rain—who knows?

It seems strange that a garden spot such as this valley should lay in the shadow of a water shortage. Possessed of every advantage—soil, climate, transportation, etc., the security of the valley is threatened by the spectre of an inadequate water supply. Here, in our opinion, is a problem for the County Consolidated Chamber of Commerce to sink its teeth in. That organization has been active in securing all kinds of things for the county—and why isn't water as important as, for instance, the lighter-than-air base at Sunnysvale?

Last week was Public Schools week and the town of Campbell celebrated the event right royally, with lots of people turning out to see for themselves just how far our educational plants have progressed since the days of the three R's. School now-a-days is made so interesting that children are usually eager to attend—and when students of a by-gone day see the diversity of the present curriculum, many of them find themselves wishing they might start all over again.

This week is Boys' week. Campbell recognizes the needs of boys and has done much to make their entertainment, play, and guidance pleasant and profitable. Rev. "Joe" Bennett has worked long and faithfully with the scout movement here, and has produced several troops of fine scout material. He inaugurated the "cub" scout movement here, and has worked wonders with the little fellows. He stands friend and confident of any lad who wishes to avail himself of Joe's helping hand. The Grattan brothers, Worthin and Gene, masters of the Seascouts, have assisted a fine crew of boys to attain Pacific coast leadership in their branch of scouting. Seascout headquarters are in the basement of the Congregational church, and on meeting nights the public is welcome to visit them and view their handiwork. The local Kiwanis club, aided by the general public, has provided a splendid hall for scout activities. Local physicians have given generously of their time to the task of helping train the lads in first aid work. All in all, we believe it would be difficult to find a community more interested in the progress of its boys. Resolve now to support the young men of tomorrow in any enterprise which to them seems important and worthwhile.

The Campbell high school student body will, on May 8, present to the public an operetta entitled "Betty Lou." Tickets are on sale now, and inasmuch as these entertain-

THELMA BROOKS IS LOCAL FIESTA QUEEN ENTRY

San Jose, April 27—To rule a flower show under a canopy of Paul Scarlet roses, to rule the floral parade as the center-piece of a flower-covered float, to be received as the single guest of honor at a pageant with a cast of 500, to be the queen of a dozen athletic events and accept the homage of Santa Clara county for three days.

This is the program outlined for the queen of the Santa Clara County Fiesta de las Rosas who will be chosen from one of the 12 cities in the county for the opening of the Fiesta which occurs in San Jose on May 14 this year and ends May 16. So active have the communities been the last week that but three queen candidates remain to be chosen.

Cities that have already entered candidates are Gilroy, Santa Clara, Sunnyvale, Morgan Hill, Los Altos, Cupertino, Palo Alto and Campbell. Those still to choose candidates are Los Gatos, Willow Glen and Mountain View.

The queen and her court which will comprise defeated candidates, will be an outstanding personnel of the fiesta during its three days. They will attend the flower show each day where the finest flowers in the county may be seen. They will be guests at "The Marriage of Josepha," historical pageant of Santa Clara county, and will ride on a flower-draped float in the grand floral parade which culminates the fiesta on the afternoon of May 16.

Campbell's entry in the queen contest, chosen by I. R. Abbott, Dr. F. R. Anderson and Dr. J. Ed Fanning, is Miss Thelma Brooks, 17, a student at the local high school and daughter of Mr. and Mrs. J. C. Brooks of Rincon avenue. Miss Brooks is blond—a very pretty blond, too, and should represent Campbell very well, either as queen or "runner-up."

Mrs. Percy Dunlap and son Robert are spending a few days at their Redwood Estates cottage.

The Autumn division of the Congregational church Guild will sponsor a supper in the church Wednesday, May 6. A play entitled "Burglars" will follow the supper.

ments are the school's only opportunities to raise money, they should be patronized by everybody who can possibly be there. The admission is small—much less than you would unhesitatingly spend to see a moving picture show. The entertainment presented by our students is always good. They spend weeks in preparation, and deserve a larger audience than that which only too frequently graces the auditorium. Plan to attend the operetta.

That's all.

To Sing At Fiesta Pageant

Roberta Leitch, former staff soprano for KPO, who has been heard at Stanford Chapel, the Forest Theater of Carmel, will sing in "The Marriage of Josepha," Fiesta de las Rosas pageant which will be held in San Jose May 14 and 15. More than 500 people will appear in the event which narrates the romantic history of Santa Clara county 100 years ago. Miss Leitch studied in Berlin, Paris and San Francisco. She is now a student of the Adult Education department of San Jose which is producing the pageant.

High School Will Present Operetta Friday, May 8th

Miss Claire Adams, dramatic teacher, is directing the Campbell Union High school operetta, "Betty Lou," which will be presented in the grammar school auditorium Friday evening, May 8. A. A. Thielke, music director of local schools, is superintending the musical features of the presentation. Orchestration will be by the high school orchestra.

Miss Gladys Nelson takes the part of Betty Lou, and supporting her are Muriel Crothers, Mark Pasquin, Geneva DiFiore, Dan Furta, Art Devitt, Lulu Mordock, Muriel Wilson, Lois Bachman, Clyde Hughes, Purley Payne Louis Munnine. A large chorus will sing.

Tickets are now on sale and should be purchased at the earliest opportunity in order that they may be exchanged for choice reserved seats.

J. Bondon, Jeweler And Watchmaker, Settles In Campbell

Mr. and Mrs. J. Bondon and family, formerly of Dos Palos, have moved to Campbell to make their home. Mr. Bondon comes here well recommended as a watch and jewelry repairman, and he will do this work at his home, which is located at the rear of the Frank Cutting place on Harrison avenue.

Mr. Bondon is also a radio entertainer, frequently having been heard over KQW in San Jose, where he puts on old time melodies with his brother-in-law. He expects to appear on the KQW bill from time to time and invites local fans to listen in.

Mr. and Mrs. S. N. Hedegard, accompanied by Mrs. Hedegard's mother, Mrs. E. Peterson, visited at Modesto and Newman last week.

Prune Growers In Annual Meeting Here Monday Eve

The Campbell-Los Gatos local of the California Prune and Apricot Growers association held their annual meeting for the purpose of electing officers for this year Monday evening at the local grammar school. Stanley Smith was elected president and director-at-large. George Payne was elected central director. E. M. Fidel was elected vice-president and Wm. Hobson, secretary-treasurer. Directors elected were Harry Barnes, Cambrian; E. B. Thrift, Hamilton; Robert Mathewson, Meridian; J. A. McCoy, Moreland; E. L. Hobson, San Clemente; E. L. Aopbater, Union; S. N. Hedegard, Campbell; S. M. Fidel, Wrights; W. A. Riggs, Los Gatos.

Regular meetings will be held every fourth Friday in Campbell.

High Orchestra To Compete In San Francisco Sat'day

The high school orchestra, directed by A. A. Thielke, will leave Friday after school for San Francisco, where Saturday they will compete in the Northern California Orchestra contest, returning here Sunday. A school bus will furnish transportation.

The orchestra has been practicing steadily for this event, and critics believe the local group has a good chance to place in their division. Mildred Pyle is concert mistress.

NOTICE

The annual meeting of the Country Woman's club will be held Monday, May 4 at 2:30 o'clock. A full attendance of members is urged to provide the necessary quorum for business.

Mrs. H. D. Townsend spent a few days with relatives here this week, returning early to Berkeley to resume her studies at U. C.

MOTHER'S DAY IS DOLLAR DAY ON SOUTHERN PAC.

Observance of Mother's Day on May 10 this year may be expected to result in thousands of home gatherings in California and other western states as part of the national homage to those honored on the special occasion.

This became a certainty today with the announcement by the Southern Pacific company of plans for another cent-a-mile sale of roundtrip transportation on Friday, May 8, and Saturday, May 9, with return limit of Thursday midnight, May 14.

Intended to expedite family reunions on the day set aside for loving tribute to the nation's mothers, the new bargain offering of transportation will also serve to carry on the railroad's novel experiment in rail traffic merchandising, according to C. T. Tanner, agent for the company in this city.

Arrangements for the forthcoming excursions provide for a two-day sale, such as inaugurated in connection with the Easter offering of penny-a-mile train rides, Mr. Tanner said. In this way, he pointed out, it will be possible for workers to leave Saturday afternoon or evening for week-end trips, even though they must return home by Monday.

Based on three-fifths of the regular one-way travel cost, the Mother's day round-trip fares will be good on all coach and Pullman trains over Southern Pacific lines from Portland to El Paso and from San Francisco to Ogden, it was announced. Salt Lake City will also be included in the territory to be covered by the excursions.

The continuation of Southern Pacific's distinctive efforts to regain passenger travel for the rails is attracting national attention, Mr. Tanner declared. More than a score of middle-western railroads operating out of Chicago recently ran cent-a-mile excursions after the manner in which Southern Pacific introduced its "dollar day" sales of train rides Feb. 20 and 27 and again for the Easter period.

Crash At Vasona Junction Injures Campbell Folks

Mr. and Mrs. R. H. Knappen were painfully but not seriously injured early Sunday morning when their car skidded off the road at Vasona Junction, sideswiped an oak tree, crashed into the rear of a parked car, and winding up on the end of a concrete culvert. The parked car was shot across the highway without injury to its occupants, L. E. Chaple and son of Oakland, who were asleep at the time of the collision.

The injured couple were rushed to Campbell by Dr.

MISS KITTIE M. JOHNSON DEAD AT MILTON, WIS.

Word was received Monday by Miss Jessie Lewis that her friend and housemate of many years standing, Miss Kittie Johnson, had passed away at Milton, Wis.

Miss Johnson had been ill for the past three years and had undergone an operation at San Diego from which she had apparently fully recovered when she returned to Campbell to resume her work as art teacher in the Campbell high school, a position which she had most capably and satisfactorily filled for some 15 years. A recurrence of her illness necessitated resigning her position, and several months past she went to Los Angeles with her sister-in-law, Mrs. Willis E. Johnson. Two weeks ago they left for Milton, Wis., where her brother, Dr. Willis Johnson, and Mrs. Johnson, make their home.

Death came as a welcome relief from suffering and her host of friends although regretting their own real loss, can only be glad that she has gone on to a happier life.

Kittie M. Johnson was born in Delano, Minn., where the family home was maintained for many years, and where her parents were laid to rest. She graduated from the University of Iowa and later continued her art studies at Stanford, Berkeley, San Diego and Carmel, under a number of artists. A most conscientious and enthusiastic teacher, she had the faculty of winning the respect and interest of her students and secured fine results from their efforts.

She was a member of a P. E. O. chapter in San Jose, in which she took an active interest, and was also a member of the Eastern Star, having been affiliated with San Jose chapter No. 3. She had a fund of quiet humor and fun of which only her more intimate acquaintances were aware.

For several years Miss Johnson's mother lived here with her, the two making their home with Miss Lewis. Five years ago this coming May she passed away and her body was taken back to Delano.

Funeral services for Miss Johnson will be held Wednesday at Delano, where interment will be made.

Immediate surviving relatives are two brothers, Dr. Willis E. Johnson of Milton, Wis., and Arthur Johnson of St. Paul, Minn., and a nephew, Clarence Johnson of San Diego.

Frank R. Anderson, where Mrs. Knappen was treated for cuts and bruises, and Mr. Knappen for a broken nose and a cracked rib.

The car, having hit the concrete "non-elastic" culvert with considerable force, suffered serious damage. It is, however, insured with Ralph H. Hyde for the required public liability and property damage, in addition to a collision policy. The possessors of the wrecked machine, by the way, have laid worry aside, and the energetic Mr. Hyde is looking after all the details necessary to rebuild the car.

The Chaple car proceeded to San Jose at daylight under its own power. Dunlap & Smiley salvaged Knappen's machine.

News Review of Current Events the World Over

The United States Joins Great Britain and France in Recognizing the New Spanish Republic—Hoover Upsets Coolidge Precedent.

By EDWARD W. PICKARD

President Zamora

WITH the United States, Great Britain, France, and several smaller republics of the world according to the new government at Madrid, headed by Niceto Alcalá Zamora, formal recognition, Spain's republican existence has come promptly into being.

The recognition of the Spanish republic by the British government served to clear the way for similar action by the United States.

Secretary of State Henry L. Stimson instructed the American ambassador to Spain to advise the republican government of the action taken by Washington.

Recognition by the United States was said to have been hastened by the consideration, urged by President Zamora, that a general recognition of the new government by the great powers will tend to strengthen it at home and enable it to maintain order.

Although Ambassador Irwin B. Laughlin is to continue at Madrid for the time being, his permanent retention there will depend upon his acceptability to the republican government. There have been reports that the ambassador, who is a Pittsburgh steel millionaire, has publicly expressed a low opinion of the republicans forming the new government.

Tranquillity appears to prevail practically everywhere in Spain, although banks are under guard and a mob liberation of prisoners has occurred at Barcelona. Catalonia is to remain part of the Spanish republic until the provincial parliament decides on some future form of government.

The provisional government announced it would recognize all debts of the monarchy. This resulted in strengthening of stocks and securities on the exchange.

THE federal farm board during the week announced its decision to offer for sale on the European market as rapidly as possible the huge surplus of wheat acquired under the wheat stabilization operations of 1930-31. It has been estimated the surplus of such wheat controlled by the board will be approximately 275,000,000 bushels by July 1, next.

The board is of the opinion that such sales can be made without depressing domestic wheat prices. The government purchases were made at an average price of about 92 cents a bushel, and the estimate has been made that the board might suffer a loss as high as 50 per cent in sales on this wheat if made in Europe at the present time.

Advice to farmers to store their grain on the farm is extended. It will cost about one-third of the regular carrying charges, if the wheat is stored on the farm itself. The attempted solution of the problem so far as the board has worked it out appears to be that the board is going to try to unload its surplus when and where it can, so far as it can without bringing about too great a slump in the market.

The farmer is then to be asked to help carry the load of the coming crop and the board will offer him a tentative promise of aid through co-operatives, suggesting an additional incentive to the farmer to join a co-operative.

James S. Stone, chairman of the board, announced that the government had sold 7,000,000 bushels of wheat abroad recently at a figure above the world price decrease of superior product.

THE message of Secretary of State Stimson warning Americans to get out of the interior of bandit-infested Nicaragua was sent to the American legation at Managua and to the American consul at Bluefields.

The message, drafted by Secretary Stimson after he had talked to President Hoover was as follows:

"In view of outbreak of banditry in portions of Nicaragua hitherto free from such violence you will advise American citizens that this government cannot undertake general protection of Americans throughout that country with American forces. To do so would lead to difficulties and commitments which this government does not propose to undertake. Therefore, the department recommends to all Americans who do not feel secure under the protection afforded them by the Nicaraguan government through the Nicaraguan National Guard to withdraw from the country, or at least to the coast towns whence they can be protected or evacuated in case of necessity. Those who remain do so at their own risk and must not expect American forces to be sent inland to their aid."

Six years ago Calvin Coolidge, then President, affirmed in an address in New York what he called the "distinct and binding obligation on the part of self-respecting gov-

ernments to afford protection to the persons and property of their citizens, wherever they may be."

This American doctrine Stimson now amends. American protection, by the new policy, follows American citizens ashore, but not to the interior of rebel-infested Nicaragua.

HIGHLY interesting at this time is the announcement that the Soviet government has decided to adopt a new wage system, known as the "Khozraschiot," which apparently changes the government's policy and amplifies the inauguration of piece work.

It is to go into effect at once. The wages of workers, according to Soviet authorities, will not be based on the communistic theory of equal division, but on the capitalistic idea of rewarding individual efforts in skill and ability.

The word Khozraschiot literally means "economic accounting." It is interpreted in the decree to mean that each factory, plant, collective farm, mine, railroad and such henceforth must take the responsibility of fulfilling contracts and adjudging wages without interference from trade unions.

Although certain elements among the disciples of Lenin view the innovation regretfully as a compromise with capitalism, the government hopes the system will speed up production. Leaders affect to see the Khozraschiot as tending to eliminate waste and fix responsibility for managers and workers.

HIGH place in the list of encouraging comments on the business situation is accorded that of Roger W. Babson, the trade prophet, who told President Hoover that better times are on the way. Business, he said, has turned the corner and now is definitely on the upgrade.

"In almost every line of industry there are some concerns which, in March, showed an increase in earnings over February. What is more important, they showed an increase for this March over March of last year. Certain of the railroads also have turned the corner," he said.

Mr. Babson has earned the right to be listened to when he ventures upon the thin ice of economic prognostication. Statistics being his daily diet, he asks the country to observe the statistics of car-loadings. These are steadily increasing. They have always been of barometrical significance. When freight is moving factories are working and shipping, merchants are buying and customers are consuming. In every key industry statistics show that one or two big firms have turned the corner, promising that smaller fry, too, are headed out of the red. The Department of Commerce makes the gratifying disclosure that our foreign trade last month for the first time in a considerable period evinced an unmistakable upgrade.

If the American people turn their gaze from the "big board" in Wall Street to the bigger opportunities which await them in constructive directions of every sort, the upturn foreseen by Mr. Babson will come all the sooner and all the surer.

RECOGNITION of the imperative necessity of solving the problem of unemployment is seen in the complete reorganization of the United States employment service, with 48 state employment bureaus and one in the District of Columbia and seven special central divisions established to deal with the problems of various trades, announced by William N. Doak, secretary of labor.

John R. Alpine of New York will head the new set-up, which has \$800,000 of appropriations available for its work. Francis I. Jones is to continue as director general, with supervision also over the special mining and quarrying trades division. The Veterans' placement service will be maintained, nationwide in its scope, and the farm employment service will be expanded.

"The United States employment service has decided," Secretary Doak's announcement said, "to open up at least one employment bureau in each of the states and the District of Columbia to co-operate with state and local authorities."

A co-ordinated service throughout the entire country will undertake in the broadest sense to take care of interstate labor placements in co-operation with employers and employees, giving employers a ready field from which to draw all needed labor necessary to carry forward any kind of work."

ident, and for several years a leading figure in the steel industry, would automatically retire on reaching the age of seventy, or in 1933.

Mr. Farrell was a leader of those in favor of the new plan, pointing out that the old one had been unsatisfactory.

There are others in the great United States Steel corporation who will retire if the plan is adopted. It provides sixty-five for voluntary retirement, and seventy for compulsory.

In this class soon would fall E. J. Buffington, president of Illinois Steel; Joshua A. Hatfield, president of American Bridge; Ward B. Perley, president of Canadian Steel; J. S. Keefe, president of American Steel & Wire, and E. W. Parzany, president of American Sheet & Tin Plate. All these are subsidiaries. The retirements would fall between 1933 and 1935.

It was pointed out that Mr. Gary as chairman of the board of directors worked at his steel until he died—ten years later than the proposed retirement plan would require.

It may be that some other plan will affect Mr. Farrell—that he, too, may carry on—but the pension plan says seventy.

Ramsay MacDonald

Lloyd George, whose Liberal following holds the balance of power in the house of commons, turned the tide to MacDonald when he denounced the Conservative motion as unfair. Of 58 Liberal votes, MacDonald received 35, the Conservatives only 10, the remainder not voting or absent.

Quite evidently Great Britain is in no mood to fall victim to political spellbinding. It knows that none of the political leaders possesses a magic wand that can charm away the disastrous consequences of the war. The nation must climb a long and weary trail, and it is prepared to do so.

Doubtless the Indian situation, which has been one of the chief causes for the depression in the British textile industry because of the Indian boycott on British goods, was an important consideration with the Liberals in supporting MacDonald.

BELIEF that the revolution in Honduras is related with operations of the insurgents under Augustino Sandino in Nicaragua has gained ground among observers of Central American politics.

It is pointed out that Gen. Gregorio Ferrera, head of the revolutionary movement in Honduras, is openly opposed to United States intervention activities, sharing Sandino's views in this regard.

Ferrera is in Mexico a year ago. He is of Indian blood and has a large following among the laborers on the large United States banana plantations of the north coast of Honduras.

Dr. Jesus Castro, Honduran charge d'affaires at Mexico City, who recently returned from a visit to Tegucigalpa, said President Mejia Colindres' refusal to admit Ferrera into his cabinet was the probable cause of the revolution. He is confident it will fail, as the President has an influential backing and a well-trained army.

Dr. Vicente Mejia Colindres was named President of Honduras in the last election and was inaugurated on February 3, 1930. Municipal elections last December gave the Liberal party a majority. Julius G. Lay, United States minister in Honduras, reported to the State department that, in his opinion, the revolt would soon "fizzle out." He said no military or political figures of consequence appear to be connected with it.

Fausto Davila is the premier and foreign minister of Honduras, and is considered by South American diplomats at Washington as well able to deal with the situation.

A STATEMENT setting out the attitude of Newton D. Baker of Cleveland, former secretary of war, toward talk of his candidacy for the Democratic nomination for the Presidency is accepted by politicians as clearing the atmosphere.

Issued by W. B. Conger, an Ohio Democratic leader, after a conference with Mr. Baker, the statement indicated that the ex-secretary will not do anything to obtain the nomination, but he will not refuse it should it come to him if the Democratic national convention is unable to agree on any of the active candidates.

During the scramble for delegates to the convention Mr. Baker will not use his influence in behalf of any particular candidate. The statement also said: "The many kind things said about Newton D. Baker as a possible Democratic candidate for the Presidency are certainly gratifying to Mr. Baker's friends and naturally to him. In my conversations with Mr. Baker he has shown very great interest in the party's platform, but no interest in possible candidacies, and I do not believe he has changed his former judgment on the subject. This has always been that he had no desire for further political preferment of any kind."

BOYS' WEEK TO BE OBSERVED AT M. E. CHURCH SUN. MAY 3

A special Boys' week program will be given in the Methodist church Sunday evening, May 3, at 7:45.

This will be a united service with the Kiwanis and the local churches, at which boys, their parents, and friends are urged to be present. Unusual musical numbers, stereopticon illustrated songs, solo and quartet numbers, band music from the school, a brief code of honor for the scouts, and an address by Judge Percy O'Connor will contribute to the value of the evening. Be sure to attend.

BON VOYAGE PARTY TENDERED GEORGE HUSTED, FRIENDS

Nearly 20 people gathered at the George L. Husted home Sunday evening to bid Mr. Husted farewell and bon voyage. Mr. Husted, accompanied by Henry Wuhrman of San Francisco and David LaMontagne of San Jose left yesterday for a four-months' Alaska.

Present at the gathering were Mr. and Mrs. H. M. Shadle, Mr. and Mrs. R. H. Hyde and son, Homer, Mr. and Mrs. M. S. Keesling and family, Mr. and Mrs. A. C. Keesling, Dr. and Mrs. Ernest Abbott, Mr. and Mrs.

fishing and hunting trip in Leonard Shadle and Mr. and Mrs. Husted and family.

To keep a wife young and happy

....give her a modern kitchen

Cook with Electricity—the modern way

Many wives spend long hours in a kitchen through whose single window the sun seldom shines.

After a few years of such monotony, is it any wonder that wives lose their good nature?

The electric range is famous for giving women more hours of leisure—to form social contacts or to be spent in the sunshine. For the electric range cooks automatically. Simply prepare the food—place it in the oven—set the controls and go your way. When you return, hours later, the meal is perfectly done—hot—and ready to serve.

Electric cooking is speedy because of the new cooking elements. As for cost of operation—that averages about 1c per meal per person. The cost of the electric range itself is no more than that of any other good range.

A small payment down will place the electric range of your choice in your kitchen, ready to use. Come into our office or a dealer's store and see the beautiful new electric ranges.

UNION CLUB PREPARES FOR ANNUAL MEET

At a recent meeting of the We and Our Neighbors club Mrs. Charles Davis, Mrs. L. Hohman and Mrs. Edwin Howes were hostesses. They had decorated the club room very attractively with spring flowers, roses and iris, with ferns. The business meeting was presided over by Mrs. Frederick Battee.

Reports of the district federation convention held in Vallejo the first of the month were read by Mrs. Battee, Mrs. Howes and Mrs. Irving Butler. Reports of the County Federation of Women's clubs held in San Jose in March were given by Mrs. Milton Francis and Mrs. Emma C. Main.

The annual meeting of the club will be held Saturday, May 9, at the clubhouse. Reservations for table should be made with Mrs. Francis or Mrs. Howes not later than May 5.

Miss Margaret Smith, who has been visiting at the J. J. Pardee home for the past week has returned to her home in Berkeley.

REBEKAHS HOLD SUCCESSFUL CARD PARTY WEDNESDAY

The Ada Rebekah lodge sponsored a card party Wednesday afternoon in the banquet room of the I. O. O. F. hall. Ten tables of whist were in play during the afternoon. The committee in charge, composed of Mrs. Emma Main, Mrs. A. E. Brydon and Mrs. W. R. Coupland, served a delicious lunch at 4 o'clock.

Prize winners were Mesdames Grace Coupland, Eva Bachman, R. Fish, W. Penhall, Anna Bachman, B. L. McCaughey, R. H. Knappen, Frank Haliwell, Myrtle Scott,

MANY PRIZES AT P. T. A. BRIDGE AND WHIST PARTY

The C. U. H. S. P. T. A. staged a card party Friday evening at the high school annex. Ten tables of whist and six tables of bridge were in play for two hours, after which a luncheon was served and prizes selected by high score holders.

Winning prizes for whist were Mrs. Horace Lea, first; Mrs. J. E. Wiesendanger, Mrs. J. W. Knowles, J. W. Knowles, A. J. Robins, Mrs. M. F. Hughes, Mrs. H. Blunt, Marjorie Keesling, C. Hobe, B. Wolf, Esther Hedegard, M. A. Carson, Archie Keesling, Horace Lea, Mrs. R. Raab, Mrs. W. Penhall, W. G. Blunt, Harry Smith and G. H. Hobe.

Winning prizes for bridge were Guy Farley, first; Neil Best, Mrs. Neil Best, Mrs. L. Selig, I. R. Abbott, Mrs. G. E. Farley, Mrs. Linn, Mrs. H. M. Shadle, R. Lear, Roy Archibald, R. B. Hummell.

Mrs. Frank R. Anderson and Children, David and Marilyn, are enjoying a vaca-
tion at Santa Cruz.

ODD FELLOWS, REBEKAHS BARBE- CUE AND DANCE

A barbecue and dance was held Saturday night at Alum Rock park by the Odd Fel-
low lodges in district No. 20.

Members of the Hesperian, Ada, San Jose, Stella and Josephine Rebekah lodges, together with their families and friends, were also in attendance.

The barbecue supper, consisting of meat, beans, bread, coffee and dessert began at 6:30, and dancing at the pavilion started at 8 and continued to a late hour.

A representative crowd of Campbell lodgemen was present, all reporting a splendid time.

Miss Maybelle Green, who has been living in Santa Cruz with her grandmother for the past several months, is making a two weeks' visit with her parents, Mr. and Mrs. Harry White, at the Busy Bee.

Mrs. H. W. Walton left last week to make her future home in Oakland.

Mrs. Fannie Connolly of San Francisco was a recent visitor at the Donald Page home.

REBEKAHS TO DINE MORNING LIGHT AT HALL THURSDAY

The Morning Light lodge, I.O.O.F., Campbell, will be feted at a banquet by the Ada Rebekah lodge Thursday evening at the hall. The dinner and social evening is to be in honor of Horace Lea and Lillian Ohlen, who have been elected district deputies from their lodges.

Following the banquet the Odd Fellows will convene in the lodge room for a short business session. At 8:30 whist will be the order of the evening.

Mrs. Anna Bachman is chairman of the committee in charge of arrangements. Those helping her are Mesdames Hazel McQueen, Beulah Covey, Wilmay Lea and Carrie Silver.

Cecil Keesling and his grandmother, Mrs. L. Sailer, spent last week in Lakeport.

Mrs. C. M. Burk and Mrs. Fannie Palmer of Oakland were visiting with Miss Jessie Lewis one day last week.

Mr. and Mrs. S. N. Hedegard received a visit last week from Mr. and Mrs. C. Stender, en route for Idaho.

STENOTYPING CLASS TAKES 150 WORDS PER MIN. AT SPEECH

The stenotyping class of the local high school last Tuesday evening took down Vierling Kersey's speech at the rate of 150 words per minute on the new machine which does away with conventional shorthand. Mrs. A. C. Dart, teacher of this class, was very well pleased with the results of the "dictation."

There are 11 pupils in the class including Frances Burleson, Kathryn Duncan, Mary

Azaveda, Helen Gartner, Esther Sorenson, Marion Fisci, Mary Coli, Madeline Mestice, Antoinette Mestice, Donald Soutar and Donald McFarland.

W. H. Stray returned home the latter part of the week from the hospital, where he underwent a tonsil operation.

The Ladies Auxiliary of the Grange held a special meeting at the home of Mrs. C. W. Sutter Friday afternoon.

His Telephone

helps the modern farmer
to make money

THE telephone promotes many a sale. It finds when and where to sell cattle, hogs, grain, fruit, or produce—for more money.

It stands always on guard in the home in case of accident, sickness, or fire. It is always ready to "run errands" to neighboring towns.

The telephone pays for itself many times over.

The modern farm home has a telephone.
